

GRÍMSEY

40 km north of the Icelandic shore lies the beautiful island of Grímsey with a population of only around 80 people. With Arctic Trip you can explore the island on land or go snorkeling in the sea surrounded by puffins and seagulls. Arctic Trip was founded with the mission that everybody should enjoy a relaxed stay to nourish the mind. We believe people should spend their holiday renewing themselves and creating memories that will last a lifetime. We are aware of our social responsibility, and our tour guides and captains are always local people. We have a passion for storytelling - and the outdoors and our team, in collaboration with the locals, is very excited to welcome you to the remote island of Grímsey, to be on top of the world! More info and online bookings: www.arctictrip.is

One of the most exciting attractions for tourists at Grímsey is the possibility to get north of the Arctic Circle, and every year a lot of people embark on a long journey to do just that.
